*Dear Judge Farman,*

*Hoping this correspondence finds you in the highest of well being. I am writing this letter as an addition to the argument concerning the injunction which took place in your court on December 1, 2005. During the court proceeding due to just the nature of bringing my case to your court was an experience and although I was not prepared to argue my case I am thankful because my experience is that it is a part of my mental and emotional healing for my experience with this issue has had its toll on me personally, but as I reviewed in my mind being in court I left there feeling that I didn't make a point clear. when I was pulled over prior to the arrest the officer found drugs in the jacket I was wearing, the Jacket I wore did not belong to me. Prior to going to the store I and a few other male students from Delaware state whom where also on campus prior to classes starting , there was about ten of us playing basketball in the gym, and being teenagers we had on the same jackets , I mistakenly picked up the wrong jacket , and didn't know the drugs or paraphnilia was in the*

This is what I wanted to say that I feel I wasn't clear on in my statements. Furthermore, you asked for the name of the attorney his name is Kevin Howard , 502 South State Street, Dover, Delaware 19901. Phone \* (302 672-5600.*

*I Thank you for your time concerning this matter.*

*Respectfully yours,*
